👤 Profile

Motivated Computer Science undergraduate seeking an industry placement to apply academic knowledge and practical skills in real-world software development. Interested in full-stack, mobile app development, and artificial intelligence. Passionate about building robust, intelligent systems from the ground up.

🎓 Education

2024 – Present

BSc (Hons) in Computer Science

University of Westminster, UK

Selected module results (first year):

- Object-Oriented Programming – 93%
- Software Development I – 93%
- Software Development II – 89%
- Mathematics for Computing – 98%
- Computer Systems Fundamentals – 92%
- Trends in Computer Science – 76%

Currently taking: Machine Learning, Algorithms, Database Systems (98%), Client-Server Architecture

2024

Foundation Certificate in Higher Education – Distinction

Informatics Institute of Technology (IIT)

- Specialized in areas related to communication, IT, and professional development
- Prepared as foundation for a BSc in Computer Science

🧰 Projects & Experience

Clovio – AI-Powered Academic Collaboration Platform

- Lead 6-person team building AI-powered academic collaboration platform
- Integrated an LLM for intelligent task breakdown and assignment
- Implemented progress prediction and fairness score using mathematical models
- Built using React and TypeScript to deliver seamless user experience
- Integrated with FastAPI, SQLAlchemy, PostgreSQL; deployed on Railway with CI/CD
- Achieved intelligent workload balancing and skill-gap detection for student teams
- Tech Stack: FastAPI, Python, SQLAlchemy, PostgreSQL, React, TypeScript, Tailwind CSS, AI LLM, Railway, Vercel, GitHub

Deployed live at: clovio.app ↗

BuildWith AI – Creator

- Built a web app that generates HTML/CSS/JS from natural language prompts using an LLM.
- Created a React + TypeScript frontend with a custom UI (sidebar, preview canvas, prompt chips).
- Securely integrates AI via serverless backend with automatic fallback across multiple models.
- Enables rapid UI prototyping without writing a single line of code.
- Dynamic example suggestions, loading indicators, and responsive design
- Fully deployed and accessible as a working web application.

Deployed live at: <https://buildwith-ai-ivory.vercel.app/> ↗

Activity Tracker - Desktop App (Python + Tkinter)

- Built a Python desktop application with a Tkinter GUI for logging daily activities.
- Implemented real-time activity tracking with start/end times and duration calculations.
- Added automatic “nothing done” detection for gaps of 15 minutes or more.
- Created summary views for daily, weekly, monthly, and custom date ranges.

Life on Land – Sustainable Development Website

- Developed a multi-page website focused on sustainable land ecosystems.
- Designed and implemented the Home page and key content pages.
- Created content aligned with environmental protection goals
- Worked with the team to maintain consistent design and structure.
- Technologies: HTML, CSS, JavaScript.

Skills

Technical Skills

- **Languages:** Python, Java, JavaScript, TypeScript, SQL, HTML, CSS
- **Frameworks & Libraries:** React, FastAPI, Tkinter, Java Swing
- **Databases & Tools:** Git, GitHub, PostgreSQL, Postman, Railway, ClickUp
- **AI / ML:** LLM integration, scikit-learn, pandas, Jupyter, Kaggle Datasets
- **Multimedia & Design:** DaVinci Resolve, CapCut
- **Soft Skills:** Team Leadership, Project Management, Problem Solving, Communication

Achievements & Extra-Curricular Activities

Certificate of Participation – CodeRally 6.0 (2025)

Team member in a competitive coding event, contributing to problem-solving and collaboration under time constraints.

Hult Prize Qualifiers Round – Attendee (2026)

Participated in a global social entrepreneurship competition, collaborating on innovative solutions.

Sports Participation (School Level)

Participated in Athletics and Swimming during schooling, demonstrating discipline, commitment, and teamwork.

Additional

- Grew a gaming TikTok account to **30K followers** and **516K likes** through engaging short-form content.
- Built an affiliate marketing TikTok account to **1.5K followers** and **10K likes**
- Conducted affiliate marketing for **Daraz**, promoting and selling products.
- Managed multiple YouTube channels, creating and editing video content using DaVinci Resolve and CapCut.
